

## Table 7

Number of people: 6

Date: 17/05/12

Time of Arrival: 17:05

Qty	Dish	Price	Qty	Drink	Price
1	Spare ribs	4.20			
Total Dish Price		4.20	Total Drink Price		
			Total Price		

Add

Delete

Finish

Selecting 'Delete' will change the colour of the button to make the user aware that it is in the 'Delete' mode.

In 'Delete' mode, red boxes with an 'x' will appear next to each order item. Clicking on it will bring up a confirmation box. If the quantity is more than 1 then it will reduce the quantity by 1.

After selecting 'Yes', on the confirmation box, the item chosen will be removed off the order. Clicking 'Yes' or 'No' on the confirmation box will make the user go out of the Delete mode.

So if the user wanted to delete another item, the user would have to click the 'Delete' button again.

On the other hand, if the user accidentally clicked on the 'Delete' button, the user could just click on the 'Delete' button again to get out of the Delete mode.
