Manage Bookings

However, if a table hasn't been occupied then the 'Assign customers to table' box will appear once clicked on the unoccupied table.

Table 6

Number of people:	<input type="text" value="2"/>
Time of arrival:	<input type="text" value="19:32"/>
Date of arrival:	<input type="text" value="04/06/13"/>
<div><div>Create</div><div>Cancel</div></div>	

User inputs the number of people that will be on the table

The user will not input the time of arrival or date of arrival as these will be from the system time and date.

Selecting 'Create' will transfer all the details from the 'Assign customer' box such as number of people, date and time of arrival to the order screen.

Selecting 'Cancel' will close the 'Assign customer' box.
